# Katch Kan®

## Rotary Safety Splash Guard

### Problem

- Unprotected rotary table causes work floor personnel injuries & negative environmental impacts

### Solution

A fully encompassing flexible guard that contains drilling fluid; allowing it to drain through the slips and be captured by the Upper Katch Kan™.

### Value

- Keeps feet and foreign objects out of rotary table & Kelly bushings
- Eliminates splashing and flooding of rotary table
- Flexes down for easy insertion/removal of slips
- Connects to Katch Mat™ in minutes without tools
- Works in conjunction with the Katch Mat™ and Kelly Bushing Guard™
- Protects workers from getting caught in slip handles
- Slip Handle Guard
- Foreign object guard or annular guard
