Katch Kan®

Well Servicing Kelly Kan™ Mini & Extended

Problem
- Uncontrolled discharge of well bore fluid on service rig floor

Solution
A device that contains and allows the well bore fluid discharge to be put back into tanks.

Value
- Seals remain supple in extreme temperatures
- Easily installed in seconds by one person without tools
- Can trip wet pipe as easily and safely as dry pipe
- To enable a greater leak-free fluid flow 4 seals are required. 2 top and 2 bottom. (No top plate required)
- Hose fitting for the ability to drain the fluid and avoid splashing of the floor
- Patented design allows for 100% fluid recovery enabled by the drainage line being in line with the bottom seal
- Can blow kelly over the rotary table instead of rat hole

Specifications
- Mini Kelly Kan™ weighs only 21 LBS -Height 22 1/4"
- Extended Mini Kelly Kan™ weighs only 31 LBS- Height 35 1/2"
- OD 8" - ID 5 1/2"
