Katch Kan®

Adapter Flange Seal

Problem

- Water tight mounting with Katch Kan™

Solution

A water tight Adapter Flange Seal.

Value

- Reduction in time needed for reclamation activities
- Less resources and time required to clean the stack
- Available in light-weight flange/wear plate combination
- Allows the Upper Katch Kan™ and Low Profile Katch Kan™ to have a water tight seal when mounted on Steel Adapter Flange
- Best available seal for Katch Kan products

Specifications

- Resistant to all fluids used on a drilling or service rig
- Available in 17", 26" and 36" diameters

17"

26"

36"
